

## Requesting Retakes

We do allow you to take your Senior Portraits over again. You will be required to pay another sitting fee and must call our studio to rebook another session. You can sometimes avoid having retakes if you speak with the photographer and make them aware of your personal preferences with your hair or style of poses being chosen. We want you to have fun and let this be a memorable moment you will cherish forever!!

Once you have completed your retakes both sets of your Senior Portraits will be kept on file. When making a purchase you are able to purchase poses from your original and retake photography session.

If you purchase the CD (which includes all the images from your session) you have the choice to purchase the full set of original portraits, the full set of the retake portraits or a combination of images from both sets not exceeding 40 images total. Upon completing your order you will need to call our studio or email us to advise us which images you have selected.

***Retake Portraits must also be taken prior to October 1st in order for you to select your yearbook pose. If you have retakes taken after October 1st we will select a retake portrait on your behalf. The retake portraits will always override the original portraits when Ro-Mo Photo has to choose your yearbook pose.***
